PRAY FOR YOUR STUDENT

Prayer is one important way that you can choose to support your student.

You may be comfortable praying and already led by your heart about how to pray for your child in Bayonnais. If this is the case, we encourage you to follow that guidance. Your student will definitely be praying for you!

If you are uncertain about what to say, we suggest you think of the things you would want for your own child, friend, or family member here in the United States. Student's needs around the world are very much the same. Once basic needs like clothing, food, shelter, and medical care are met, all children just want to be loved. They all love to have fun, to have opportunities to learn and grow, and to be important in their families and communities.

Below is a suggestion to help you get started. The words are really not as important as your intention. God knows our hearts and the love that you feel when you say or think the words and that is the force that sends those prayers to your student in Bayonnais.

Dear (God, Lord, Heavenly Father/Mother God),

Please surround (child's name) with your Love and Light. May your power of protection enfold (him/her) and (his/her) family today. Provide the needed strength for (child's name) to face any adversity the day may bring. Let (him/her) soak up the knowledge you have for (him/her) today. May (he/she) experience joy and gratitude today. May (he/she) be a light in (his/her) community. Let your loving spirit shine through (him/her) that she may be an example of your Power and Goodness to all of those around (him/her).
